

# Program Logic: Tools for pre-evaluating your programs

This session will provide an introduction to program logic, outlining the logic that underpins a program or practice. Program logic identifies how the original aims and goals of the program are linked to the activities and intended outcomes. This session has been designed as an introduction to program logic for program managers and coordinators who are responsible for evaluation as part of their responsibilities. This course is ideal for those working within the community service sector specifically child, youth and family services.
